DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10 February 2009 has been entered.
2. Claims 1-26 have been presented for examination.

Response to Arguments

3. Applicant's arguments, see pages 14-16, filed 12 December 2008, with respect to the prior art rejection have been fully considered and are persuasive. The prior art rejection of claims 1-26 has been withdrawn.

Allowable Subject Matter

4. Claims 1-26 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art has shown that the use of an identification code that changes at predetermined intervals, such as RSA's SecurID. The prior art does not provide a teaching of an encryption code that changes at random intervals used in conjunction with the randomly changing identification code. The prior art also does not provide a teaching, suggestion, or motivation that would render the use of randomly changing encryption codes with a system like RSA's SecurID obvious. Therefore, claims 1-26 are novel and not obvious.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. The following patents are cited to further show the state of the art with respect to randomly changing identification codes, such as:

United States Patent No. 6,130,621 to Weiss, which is cited to show using time-varying authorization codes to gain access to hardware.

United States Patent No. 7,427,033 B1 to Roskind, which is cited to show time-varying security codes for authorization during financial transactions.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian LaForgia whose telephone number is (571)272-3792.
